

## **Message from our CEO regarding COVID-19**

Dear valued partners,

As a global provider of precision automation, inspection, and metrology solutions DWFritz Automation recognizes the important role we play in your success. In response to this ongoing crisis, DWFritz has taken steps to ensure business continuity and employee safety, while continuing to meet the needs of our customers and partners.

DWFritz Automation is committed to full compliance with any government-mandated restrictions on travel, meetings, and events in all of the countries in which we operate. To ensure the health and safety of our employees, all non-production related staff have been instructed to work from home in order to prevent any further spread of the virus and ensure a safer work environment for team members whose roles necessitate being on-site at our facilities. All of our staff have access to remote meeting applications and are safe and productive.

As the COVID-19 situation is changing rapidly, we will advise our customers and partners as new circumstances affect our current outlook. If you have any specific concerns about our ability to support your business, please contact your sales representative directly and they will address any concerns you may have.

Meanwhile, do stay safe.

Regards,

Mike Fritz  
CEO.
